

Organizational Capacity Building

The A-G Military, Veteran, and Family Center of Excellence (MVF-COE) identifies gaps, offers solutions, and drives impact in collaboration with organizations focused on service members, veterans, and their families (SMVF). Our vision is a world in which SMVF's lives are improved through dynamic, integrated, flexible service delivery across multiple service domains.

We help your organization define your goals and build a pathway to sustainable results

- Higher return of investment
- Expert assessments whether you're just starting out or taking your organization to the next level
- Customized recommendations to give you a path to a more effective development program.
- Ongoing support and consulting services to implement recommendations

Goal Detail

A-G's expert facilitators provide critical support during periods of transformation. Using our proprietary Focus methodology, A-G guides conversations that allow senior leaders to provide a strategic vision linked with clear goals, objectives, and decisive guidance (top-down goal setting). We then work with organizational components to internalize leadership's goals and design the process for achieving those goals (bottom-up refinement).
