

Program Evaluation

The A-G Military, Veteran, and Family Center of Excellence (MVF-COE) identifies gaps, offers solutions, and drives impact in collaboration with organizations focused on service members, veterans, and their families (SMVF). Our vision is a world in which SMVF's lives are improved through dynamic, integrated, flexible service delivery across multiple service domains.

WHAT WE DO

Through our Program Evaluation services, SMVF-serving organizations can demonstrate the impact of their programs, secure funding, and improve outcomes for military members, veterans, and their families.

Our logic model framework is an evaluation tool that serves as a roadmap to bring your organization from point A to point B

Objectives	Evaluation	Inputs	Outputs	Outcomes	Data
Organization Driven	Goal Directed Questions	Available Resources	Creation of Tangible Products	Desired Impact	Quantitative
Collaboratively Identified	Data Driven	Program Activities	Deliverables	Demonstration of Change	Qualitative
Human Centered	Dynamic Refinement	Multivariable and Intersectional	Progress Metrics	Accomplishments	Reportable Evidence

- Program evaluation provides military and veteran-serving organizations with an efficient way to assess the effectiveness and reach of their programs and services
- Needs assessments, logic model development, data collection and analysis, and reporting
- Design, implementation, and evaluation of programs and services specific to SMVF and communities to implement recommendations

Using customized dashboards within A-G's proprietary Focus platform, we provide clients with the ability to develop strategic goals and initiatives, determine priorities and success metrics, develop project plans (for the execution of goals), collaborate with project teams (internal and external), and compare critical project milestones with data that tells the story of impact, and ultimately success (or failure). This data-driven analysis enables the Executive Team to make well-informed decisions with strategic implications.
