

# Project Management and Organizational Leadership

The A-G Military, Veteran, and Family Center of Excellence (MVF-COE) identifies gaps, offers solutions, and drives impact in collaboration with organizations focused on service members, veterans, and their families (SMVF). Our vision is a world in which SMVF's lives are improved through dynamic, integrated, flexible service delivery across multiple service domains.

## EXPERIENCED PROJECT MANAGEMENT

- Full lifecycle project management from planning and design to development, implementation, and delivery
- Successful integration of project management into your organization will save your business time and money while driving impactful and successful projects to completion
- A personalized approach enables us to lead project teams to deliver projects on time and within budget

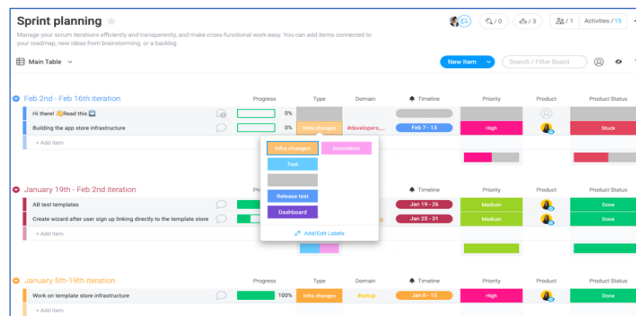

The integration of A-G project management with our proprietary Focus methodology provides leadership with a strategic vision linked with clear goals, objectives, and decisive guidance (top-down goal setting). We then work with organizational components to internalize leadership's goals and design the process for achieving those goals (bottom-up refinement). Our Focus methodology and platform emphasize impact, not simply project completion.

## MVF-COE, Agile Project Management, and Development Methodology

Plan	Design	Build	Test	Deploy	Review
Engage with SMVF partners, stakeholders, and project owners to determine objectives, goals, deliverables, and desired outcomes	Using iterative Human Centered Design, we create solutions that align your company's projects	We develop program assets including logistic support, employee resources, group workshops, professional trainings, and integrated evaluation	Working with SMVF stakeholders, we conduct user-acceptance testing of all features, programs, and operations	Disseminate and implement pilot assets and at scale, and monitor continuous deployments featuring integrated evaluative components	Assets, projects, and goals are continuously monitored for successes, growth edge opportunity, impact, and project refinement

Our experienced project managers utilize sophisticated technology and industry-recognized project management platforms and capabilities to ensure high-capacity performance.
